

Ramp Safety: Making Your FBO Experience Safe for You and FBO Personnel

An FBO operations manager and a local flight instructor will hold a forum to address safety on busy FBO ramps from both the pilot's and the line professional's standpoint. This forum seeks to create an open, useful dialogue between pilots and line service professionals in order to foster a safer, more efficient ramp environment. Presented by: Michael Blohm, Operations Manager, Texas Aero; Aaron Dabney, NAFI-Accredited Master CFI and North Texas Region FAASafetyTeam Representative

Directions: From I-35 in Waco, exit Lake Shore Drive (FM 3051). Continue on FM 3051 for approximately 8 miles, and merge right onto Karl May Drive at the airport entrance. Texas Aero is adjacent to the airline terminal and control tower.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
